PRODUCT FACTS

Revolution

Reactive Gloss Coat: Highest Shine on the market

Unique 2 in 1 oligomer technology

Combines oligomers with light activated photo initiators for a more complete fusion for harder, longer wearing and shinier nails.

Result: Stronger shine, Better curing

Revolution is more reactive to natural light, interlinking with Colour to dry to a more durable high shine, with its longer chain molecular structure, than anything on the market

So unique, it's patent pending.
